* फ्री स्टडी मटेरियल

* न्यूनतम शिक्षण शुल्क

* नियमित कक्षाये

Question 1: What fraction of a clockwise revolution does the hour hand of a clock turn through, when it goes from (a) 3 to 9 (b) 4 to 7 (c) 7 to 10 (d) 12 to 9 (e) 1 to 10 (f) 6 to 3

Answer: (a) 12 or two right angles

(b) 14 or one right angle

(c) 14 or one right angle

(d) 34 or three right angles.

(e) 34 or three right angles.

(f) 34 or three right angles.

Question 2: Where will the hand of a clock stop if it:

(a) starts at 12 and make $\frac{1}{2}$ of a revolution, clockwise?

(b) starts at 2 and makes $\frac{1}{2}$ of a revolution, clockwise?

(c) starts at 5 and makes $\frac{1}{4}$ of a revolution, clockwise?

(d) starts at 5 and makes $\frac{3}{4}$ of a revolution, clockwise?

Answer: (a) At 6 (b) At 8 (c) At 8 (d) At 2

Question 3: Which direction will you face if you start facing:

(a) East and make 12 of a revolution clockwise?

(b) East and make 1 12 of a revolution clockwise?

(c) West and makes 34 of a revolution, clockwise?

(d) South and make one full revolution?

(Should we specify clockwise or anti-clockwise for this last question? Why not?)

Answer: (a) West (b) West (c) North (d) South

(For answer (d), it is immaterial whether we turn clockwise or anticlockwise, because one full revolution will bring us back to the original position)

Question 4: What part of a revolution have you turned through if you stand facing:

(a) East and turn clockwise to face north?

(b) South and turn clockwise to face east?

(c) West and turn clockwise to face east?

Answer: (a) $\frac{3}{4}$ (b) $\frac{3}{4}$ (c) $\frac{1}{4}$

Question 5: Find the number of right angles turned through by the hour hand of a clock when it goes from:

(a) 3 to 6 (b) 2 to 8 (c) 5 to 11 (d) 10 to 1 (e) 12 to 9 (f) 12 to 6

Answer: (a) One right angle (b) Two right angles (c) Two right angles

(d) One right angle (e) Three right angles (f) Two right angles

Question 6: How many right angles do you make if you start facing:

Answer

(a) South and turn clockwise to west?

(a) One right angle

(b) North and turn anti-clockwise to east?

(b) Three right angles

(c) West and turn to west?

(c) Four right angles

(d) South and turn to north?

(d) Two right angles

Question 7: Where will the hour hand of a clock stop if it starts:

Answer:

(a) from 6 and turns through 1 right angle?

(a) At 9

(b) from 8 and turns through 2 right angles?

(b) At 2

(c) from 10 and turns through 3 right angles?

(c) At 7

(d) from 7 and turns through 2 straight angles?

(d) At 7
